The purpose of these supplementary Terms & Conditions is to identify the scope of services offered by Charterhouse Surveying, and the personally appointed Surveyor in connection with the service of notices or fulfilment of an appointment under Section 10 of the Party Wall etc. Act 1996 (‘the Act’).
- III. By instructing Charterhouse Surveying, the Client/Appointing Owner agrees to be bound by these supplementary Terms & Conditions as well as the general Terms & Conditions of Charterhouse Surveying Ltd, as published on our website.

3.0 SCOPE OF APPOINTMENT

- I. The Consultant may be appointed to either provide general pre-dispute advice outside of an appointment under Section 10 of the Act, or in accordance with Section 10 of the Act where a dispute has arisen; in this case the individual Surveyor so appointed shall then be referred to as the 'Party Wall Surveyor'. This may be in the capacity of Building Owner's Surveyor, Adjoining Owner's Surveyor or Agreed Surveyor, where agreed between the parties.
- II. The Client may be either a Building Owner or an Adjoining Owner seeking initial advice prior to the formal appointment of a Party Wall Surveyor under Section 10 of the Act. This may be an organisation or an individual. Where the Client appoints the Consultant in accordance with Section 10 of the Act they shall then be referred to as an 'Appointing Owner'.
- III. Once appointed in accordance with Section 10 of the Act, the Party Wall Surveyor and the Appointing Owner do not assume a traditional Client-Surveyor relationship; this is supplanted by the statutory nature of the appointment, thus the Client shall be known as the 'Appointing Owner'. Where the Consultant is instructed to advise on any Party Wall issues prior to a formal appointment in accordance with the Act, then the traditional Client-Surveyor relationship may exist, but will be supplanted as soon as any appointment in accordance with Section 10 of the Act is made.
- IV. The role of the Party Wall Surveyor (either as Building Owner's Surveyor, Adjoining Owner's Surveyor or Agreed Surveyor) is for the purposes of serving and receiving associated notices and preparing the Award and Schedule of Condition as far as the works detailed therein fall under the Act and following the requisite appointment of the Party Wall Surveyor in accordance with the Act.
- V. The Party Wall Surveyor does not assume any designer responsibilities for the awarded works under the CDM Regulations (2007) or otherwise. The Party Wall Surveyor is not a Contract Administrator or Project Manager of the Works and is not engaged to oversee the works in terms of materials & workmanship or statutory compliance.
- VI. The Consultant/Party Wall Surveyor cannot and will not be held liable or responsible for the actions of their Client/Appointing Owner, or for failure of their Client/Appointing Owner to comply with their duties under the Act. The Party Wall Surveyor cannot and will not be held liable or responsible for the actions of any other appointed Surveyor under the Award. The Party Wall Surveyor's agreement and signing of an Award shall not be construed as

confirmation the works detailed therein comply with any associated statutory regulations. The Award may stipulate that it is conditional on compliance with any associated statutory regulations in undertaking the works so awarded.

- VII. All appointments shall be made in writing and authorised by all owners of the property occupied by the appointing party.
- VIII. The nature of the appointment may include, but is not limited to:
- a) Advising on the notifiability of proposed works under the Act.
 - b) Preparation and service of notices in respect of the Building Owner's proposed works.
 - c) Receiving, reviewing, verifying and responding to notices on behalf of the Adjoining Owner.
 - d) Preparation and service of an Award.
 - e) Receiving, reviewing, verifying, agreeing, signing and serving an Award prepared by another Party Wall Surveyor.
 - f) Preparation of a Schedule of Condition to be included within an Award.
 - g) Checking the validity and accuracy of a Schedule of Condition prepared by another Party Wall Surveyor. This may include, but is not limited to;
 - Amending or revising a Schedule of Condition prepared by another Party Wall Surveyor.
 - Agreeing a Schedule of Condition prepared by another Party Wall Surveyor.
 - Publishing a revised version of a Schedule of Condition prepared by another Party Wall Surveyor.
 - Issuing any associated correspondence, following service of an Award, as deemed necessary under the Act.
 - Checking any awarded works during and on completion. § Assessing the nature and cost of any damage caused as a result of the awarded works.
- IX. The Consultant/Party Wall Surveyor will undertake the appointment within the timescales specified by the Client/Appointing Owner whilst observing the associated notification timescales set out within the Act. In the first instance the Consultant/Party Wall Surveyor will ascertain any key dates crucial to the appointment.
- X. The Consultant/Party Wall Surveyor will, prior to inspecting the property, review all information and documentation necessary to fulfil the appointment, and where requested, the Client/Appointing Owner will provide the Consultant/Party Wall Surveyor with all information and documentation necessary to fulfil the appointment.
- XI. The Consultant/Party Wall Surveyor will conduct all work involved in the preparation of a Party Wall Award in accordance with and under the conditions of The Party Wall etc Act 1996. The Act defines the rights and duties of owners and the duties of their Surveyors in the event of a dispute arising.
- XII. If, following appointment in accordance with Section 10 of the Act, the Party Wall Surveyor acting for the Building Owner adduces that further notices are required to be served upon the Adjoining Owner (in respect of additional or modified notifiable works to be undertaken by the Building Owner), he shall serve such additional notices on behalf of the Building

Owner and shall continue to be appointed as the Building Owner's Surveyor in the event of the Adjoining Owner's dissent (or deemed dissent) to such notices.

- XIII. If, following appointment in accordance with Section 10 of the Act, the Party Wall Surveyor acting for the Adjoining Owner receives, on behalf of the Adjoining Owner, further notices pursuant to additional or modified notifiable works proposed by the Building Owner, and in the event the Adjoining Owner elects to dissent or fails to respond to such notices, he shall continue to be appointed as the Adjoining Owner's Surveyor in respect of any matters of dispute arising from such notices reasonably requiring his involvement.

4.0 EXTENT OF INSPECTION FOR A SCHEDULE OF CONDITION

- I. The Schedule of Condition inspection is a visual inspection only, it is not a survey and offers no diagnosis or prognosis for any defects found. The Consultant/Party Wall Surveyor will carry out the inspection on the assumption the property is safe to enter and inspect. The Client/Appointing Owner will provide the Consultant/Party Wall Surveyor with a copy of any asbestos register, report or record in accordance with the Control of Asbestos at Work Regulations 2006 prior to the inspection along with any other relevant Health & Safety files or information in accordance with the Workplace (Health, Safety & Welfare) Regulations 1992 and The Construction (Design and Management) Regulations 2015.
- II. In the event access to any roof surfaces is required as part of the inspection, which cannot be safely viewed from a ladder less than 3 metres in length, or where the roofs are fragile in nature at any height, it may be necessary to use a roof access hoist. This will incur an additional charge to be agreed with the Client/Appointing Owner at the point of instruction and will be provided by a Third Party.
- III. Unless otherwise indicated, the inspection of the property will be of a visual and non-intrusive nature and will only extend to the demise illustrated in any lease plans or other documents provided by the Client/Appointing Owner. In the event no demise plans are available, the Consultant/Party Wall Surveyor will make an assumption as to the extent of the demise and will communicate this to the Client/Appointing Owner.
- IV. The Consultant/Party Wall Surveyor will use all reasonable endeavours to inspect all parts of the property, including safely accessible roof voids, ducts, cupboards, enclosed spaces but will not inspect those parts of the property or its services that are built in, covered up or otherwise made inaccessible in the normal course of construction, fitting out or occupation. The Consultant/Party Wall Surveyor is therefore unable to report that any such parts of the property are free from defect, damage, corrosion, rot or beetle infestation or other general defects.
- V. Unless otherwise instructed, the Consultant/Party Wall Surveyor will not inspect or test any of the water, mechanical, heating, electrical or drainage installations within or around the property. Where appropriate, the Consultant/Party Wall Surveyor will make a recommendation in relation to the execution of specialist tests to establish the condition and existence of any defects; this may require the appointment of a specialist Sub-Consultant and may incur an additional fee.

- VI. Where appropriate, the Consultant/Party Wall Surveyor will make a recommendation for opening up and further investigations or tests to establish the type of concealed construction and its condition; this may require the appointment of a specialist Sub-Consultant and may incur an additional fee.
- VII. If, during the inspection, the Consultant/Party Wall Surveyor considers there to be a significant possibility that deleterious, inferior or hazardous materials exist at the property, the appropriate Owner will be informed so that they can appoint third party experts consultants to investigate, if required. This will be outside of our agreement.
- VIII. The Consultant/Party Wall Surveyor will not take any samples of suspected deleterious, inferior or hazardous materials from the property for laboratory testing.
- IX. Unless otherwise instructed, the Consultant/Party Wall Surveyor will not pass comment upon the apparent existence of contamination or pollution at or in the area of the property, the impact of past, existing or proposed uses of the property on its immediate environment or other environmental issues such as the energy efficiency of the building or the property. This can be undertaken upon receipt of the Client's/Appointing Owner's further instructions, but this may require the appointment of a specialist Sub-Consultant and may incur an additional fee.
- X. The Schedule does not constitute an Environmental Audit or Survey and nothing contained in it should be treated as a statement that there is no contamination, pollution or flooding problems relating to the property or confirmation that the property or any process carried out therein complies with existing or proposed legislation. Further investigation of these matters can be undertaken upon receipt of the Client's/Appointing Owner's further instructions, but this may require the appointment of a specialist Sub-Consultant and may incur an additional fee.
- XI. The Schedule does not constitute an overview as to the presence or existence of low frequency electronic fields, electro-magnetic radiation, radon, toxic mould, calcium chloride, lead based paints, Japanese knotweed or similar controversial environmental issues, all of which are considered to be outside the scope of the appointment. Further investigation of these matters can be undertaken upon receipt of the Client's/Appointing Owner's further instructions, but this may require the appointment of a specialist Sub-Consultant and may incur an additional fee.
- XII. The Schedule does not extend to searches with the National Coal Board or other statutory bodies to establish whether the property is affected by subsidence as a result of mining or tunnelling operations.
- XIII. The Schedule will not review or take in to account mining, geological and soil investigation reports prepared by others and will not therefore certify that any land is capable of development or redevelopment at reasonable cost.
- XIV. The Schedule does not constitute an overview as to the suitability of the property for any use or potential use or as a redevelopment site.
- XV. The Schedule does not constitute an overview as to the suitability of the existing or proposed use in terms of the Use Class currently assigned to the property.
- XVI. The inspection will not involve a review as to the general compliance of the premises with current statutory requirements and regulations. This includes, but is not limited to, Planning

legislation, Building Regulations, Fire Regulations/Precautions and Workplace Regulations, where applicable. The inspection or resultant Schedule does not constitute a risk assessment to satisfy the requirements of any such legislation which is considered to be outside the scope of the appointment.

- XVII. The Schedule will not review the energy efficiency or air tightness of the building. In particular, the Schedule will not review the premises in terms of 'Part L' of the Building Regulations or the European Union's Directive on 'Energy Performance in Buildings'.
- XVIII. Unless otherwise stated, it shall be assumed that all necessary permanent planning and other consents, approvals and permissions have been obtained for the construction and current use of the property and that there are no outstanding enforcement or other notices.
- XIX. Unless otherwise stated, no information shall be ascertained or adduced in respect of any dispute or claim with Adjoining Owners or neighbouring properties, or indeed the impact of works undertaken to adjacent sites that may impact on any future development or redevelopment proposals for the site (i.e. special foundations to adjoining premises or oversailing).
- XX. The Schedule will not review or comment upon the existence of any major risk hazards, easements, rights of light issues, boundary disputes or matters concerning rights of support.
